Fatima Rahimi

Product Manager | Data-informed decisions · SQL · Python · Power BI

Estonia • fatimarahimi5696@gmail.com • linkedin.com/in/fatimarahimi • github.com/Fatimarahimi

SUMMARY

Product manager with two years in IoT connectivity and cybersecurity SaaS, built on six years in technical support and onboarding. At 1oT I worked with telecom partners such as Elisa and Bite on a SIM and eSIM management platform, turning partner needs, usage and ticket data into prioritised work for engineers and designers — leading to improvements like a two-click SIM re-order. I back product decisions with my own analysis in SQL, Python and Power BI, with hands-on projects in customer segmentation and automated reporting.

DATA ANALYTICS PROJECTS

DACA programme — UrbanStyle.ltd retail case study (2026) · github.com/Fatimarahimi/daca-portfolio

- Segmented 2,540 customers into 5 RFM groups (Python, pandas); 455 “Champions” (18% of customers) generate €1.15M — 42.8% of revenue.
- Built an automated ETL pipeline (Python, Supabase API, Plotly) processing 10,118 sales across 183 weeks into weekly KPIs, a dated CSV and chart, with step logging and error handling — runs in ~2.5 seconds.
- Audited a 362-row product catalogue (SQL, PostgreSQL): found 12 duplicate product names across 23 rows; confirmed no missing values or invalid prices.

EXPERIENCE

Product Manager January 2025 – May 2026
1oT Estonia

- **Strategic Leadership:** Developed and refined the 1oT Terminal's product strategy, aligning it with business objectives and market needs.
- **Team Collaboration:** Partnered with a team of 7 engineers and designers to prioritise and execute work, delivering strong product experiences.
- **Customer-Centric Decision Making:** Analysed customer feedback and market trends to make data-informed product decisions.
- **Stakeholder Communication:** Acted as primary point of contact for questions, concerns and issues during development, keeping stakeholders informed on progress.
- **Metrics and Performance:** Defined and tracked key performance metrics aligned with business goals to drive continuous improvement.
- **Product Documentation:** Prepared and maintained product documentation (PRDs incl. billing logic), educational materials and release notes to support adoption.

Technical Product Manager June 2024 – November 2024
ThreatDown / Malwarebytes

- Managed ongoing relationships with major external carrier partners, translating their operational needs and real user signal into prioritised, actionable work.
- Conducted direct discovery with customers, sales and support teams to identify real friction points and validate solutions before committing engineering time.
- Partnered closely with engineers and designers to deliver solutions addressing partner and customer pain points.
- Served as the main point of contact for partner questions, concerns and issues throughout development, keeping communication clear and proactive.
- Defined and tracked success metrics post-launch, staying accountable for whether solutions worked, not just whether they shipped.
- Prepared product documentation and release materials to support partner and customer adoption.
- Led product management for core technologies, defining roadmaps and prioritising critical components for cybersecurity solutions.
- Collaborated with stakeholders and cross-functional teams to align feature requirements with business goals.
- Analysed product performance data to inform decisions and continuously improve core technology features.

Associate Manager, B2C Support Team August 2022 – June 2024
Malwarebytes

- Supervised and supported the Technical Support Team, monitoring and analysing key support metrics.
- Acted as Tech Lead for Mac and mobile products, handling escalated tickets and attending product meetings to represent support interests.
- Created and maintained training materials, conducted technical training and facilitated regular 1:1 meetings to align team goals.

Technical Support Specialist October 2020 – August 2022
Malwarebytes

- Provided technical expertise, troubleshooting and customer service.
- Assisted users with Windows OS-related issues, system configurations and optimisation.
- Analysed user needs and collaborated with cross-functional teams.

- Ensured seamless integration of Windows-based solutions.
- Communicated complex technical concepts to non-technical users.
- Stayed current with industry trends to provide effective, up-to-date support.

Technical Support & Onboarding Specialist March 2018 – October 2020
Linnworks Tallinn

- Gathered and analysed business requirements.
- Provided platform training sessions to small and medium businesses.
- Ensured successful go-live with the platform and its integration into day-to-day business.
- Responded to customers via live chat, ticket system and phone.
- Investigated technical issues and escalated as needed.
- Stayed current with the development of a fast-paced product.

Project Officer April 2011 – June 2016
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Afghanistan

- Conducted monitoring and evaluation (M&E) activities and prepared comprehensive reports to oversee project progress.
- Managed data entry and databases, translating project forms for effective documentation.
- Fostered cooperation with training institutes, donors and other GIZ projects, contributing to project success.

Project / Program Coordinator April 2011 – June 2016
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Afghanistan

- Oversaw literacy courses across 9 provinces and authored transparent monthly reports on project outcomes.
- Managed workshops, developed training materials and established contracts for individuals and NGOs.
- Supported admin/finance, HR and PR units, improving overall project efficiency.

Administrative and Financial Officer April 2011 – June 2016
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Afghanistan

- Established, modified and terminated contracts for individuals and NGOs.
- Calculated allowances and travel costs, ensuring accurate financial transactions.
- Provided procurement support, streamlining operational processes.
- Regularly prepared financial reports, maintaining transparency and accountability.

EDUCATION

Data Analyst Career Accelerator (DACA) 2026
Ettevõtluskeskus OÜ, Estonia — SQL, Python, Power BI, automation

Business Administration and Management 2015
Aria University

SKILLS

- **Data Analysis:** SQL (PostgreSQL), Python (pandas), Power BI, Plotly, Jupyter, Git/GitHub, ETL pipelines, customer segmentation (RFM), KPI reporting
- **Product Management:** Roadmapping, PRDs, discovery, prioritisation, success metrics, release documentation
- **Implementation & Project Delivery:** Coordinating resources, timelines and stakeholders; identifying and mitigating delivery risks and bottlenecks
- **Technical Fluency:** Reading API documentation (RESTful APIs, JSON), troubleshooting integration issues, Windows, Mac, Android and iOS
- **Customer Onboarding & Requirements Analysis:** Requirement sessions, workshops, demos and training; mapping and analysing customer needs
- **Stakeholder Management:** Managing internal technical teams and external client-side stakeholders through daily communication
- **UX/UI:** User research and interviews, design thinking, wireframing, prototyping (Figma), usability testing, user journey mapping, information architecture, accessibility basics
